Statement of Need/Program Overview

This symposium is intended to improve care of patients with immunotherapeutic options for selected tumor types by accelerating adoption of new evidence-based practice change. The format will include didactic lectures from known opinion leaders, question and answer sessions, and ample opportunity for participant interaction with faculty.

Target Audience

This symposium is directed primarily to hematologists/oncologists, researchers, pharmacists, registered nurses, physician assistants, nurse practitioners and fellows in training interested in new development in immunotherapy options for selected tumor types. No specific skill or knowledge other than a basic training in hematology/oncology is required for successful participation in this activity.
