Target Audience

This symposium is directed primarily to hematologists/oncologists, radiation oncologists, surgical oncologists, researchers, pharmacists, registered nurses, physician assistants, nurse practitioners and fellows in training interested in new development in non-small cell lung cancer and breast cancer. No specific skill or knowledge other than a basic training in hematology/oncology is required for successful participation in this activity.

Statement of Need/Program Overview

This symposium is intended to improve care of patients with non-small cell lung cancer and breast cancer by accelerating adoption of new guidelines and evidence-based practice change. The format will include didactic lectures from known opinion leaders, question and answer sessions, and ample opportunity for participant interaction with faculty.
